Profile

Hi, I'm Ivan and I am a character artist. I can also sculpt, texture, shade, light, and render. To keep my work relatable, I research mass production and machining techniques, and current concept artists. I have extensively studied anatomy and classical figure sculpture, as well as scifi mechanical design. For commercial work, I have also explored cartoon and stylized character modeling. I love what I do and would like nothing more than to find a place where I can contribute the highest caliber work to the highest caliber projects.

Experience

I've freelanced at

Buck, Los Angeles

Superfad, Los Angeles

Roger, Los Angeles

Laundry, Los Angeles

The Zoo FX, Los Angeles

Zero VFX, Boston

Halfadeer, Boston

WoodBeard Inc., Maine

working on projects for
